INTERESTS

I have a strong interest in music, playing both electric guitar and ukulele. I also enjoy listening to music in my spare time.

I have a passion for playing video and card games, such as real-time strategy and team-based role-playing games.

I spend lots of my free time reading thrillers, historical fiction, manga and science fiction.

I enjoy critically watching a wide variety of films. This lets me improve my own writing by learning from other writers
